Description

Enjoy a stroll with your little one and turn some heads with the brilliant Familidoo Air Travel Stroller! This lightweight yet sturdy Stroller features a super compact, one hand fold that is a perfect companion for any adventure with your little one. Suitable from birth, this is perfect for summer days and beyond.

This Stroller features a detachable bumper bar which comes off simply and easily when your child wants to lie down; folding down with the Stroller, the generously sized seat has a large under seat basket to hold all of your essentials when you and your baby are on your travels. Also included, is a PVC rain cover just in case you get caught in a sudden shower.

This comfortable Stroller has a multi-position adjustable backrest recline, so when it all gets too much your little one can sit back and nod off happily, or sit upright and watch the world go by. The compact fold is quick and easy and is simple to do with just one hand. When folded the Familidoo Air Stroller can be easily transported or stored away and can even stand whilst folded. In addition to this, you will also receive a handy travel bag to carry your Stroller wherever you may be.

A 5-point harness holds your baby in the perfect position and provides additional safety and security whilst on the go. The solid and secure

wheels that feature on the Familidoo Air will not puncture like air filled tyres, not only this but the front wheels swivel for accurate and precise manoeuvrability.
