Description

FACE CLEANSER – THE FACE WASH by BULK HOMME is a facial cleanser designed to remove dirt and excess oil from the skin using clay minerals and bentonite clay. A long-used raw soap formula creates a soft, extremely elastic lather: this delicate yet dense foam helps cleanse skin without drying it out or causing micro-tears as you wash your face, making it particularly pleasant to use and perfect for overall face care. THE FACE WASH can be used on oily, dry, or combination skin types.

HOW TO USE? – Squeeze a cherry-sized amount of THE FACE WASH into your hand or THE BUBBLE NET (sold separately). Rub the face cleanser to create a rich lather, apply foam to your wet face and gently massage. Rinse thoroughly with water to remove all the foam from your face.

NATURAL INGREDIENTS – THE FACE WASH and all products from BULK HOMME feature 7 key ingredients: Malus Domestica (a Swiss

variety of apple), Citrus Junos (the Japanese Yuzu fruit), Onsen Water (used for its rejuvenating properties), Salix Alba (the white willow tree), Hydrolysed Silk (from golden silk cocoon), Camellia Sinensis (the plant origin of black and green teas) and Glyceryl Glucoside (a South African resurrection plant). The formulation makes this face cleanser perfect for every man.

GIFTS FOR MEN – BULK HOMME's products are the perfect gift for any man in your life. Give your loved ones an elevated skincare experience with BULK HOMME's original formulation, natural ingredients, and signature packaging. Add THE BUBBLE NET to create a denser and more voluminous lather to improve your face-washing experience.

MADE IN JAPAN – BULK HOMME produces its advanced skincare lineup in Japan, where each ingredient is carefully selected to capitalise on freshness and quality. BULK HOMME is well known as the top, multi-award winning men's skincare brand in Japan.
